

COMPANY PROFILE

EMPOWERING TOMORROW TOGETHER

Harnessing Technology to Address
Global Challenges to Health, Social
Justice, Environment and Equity

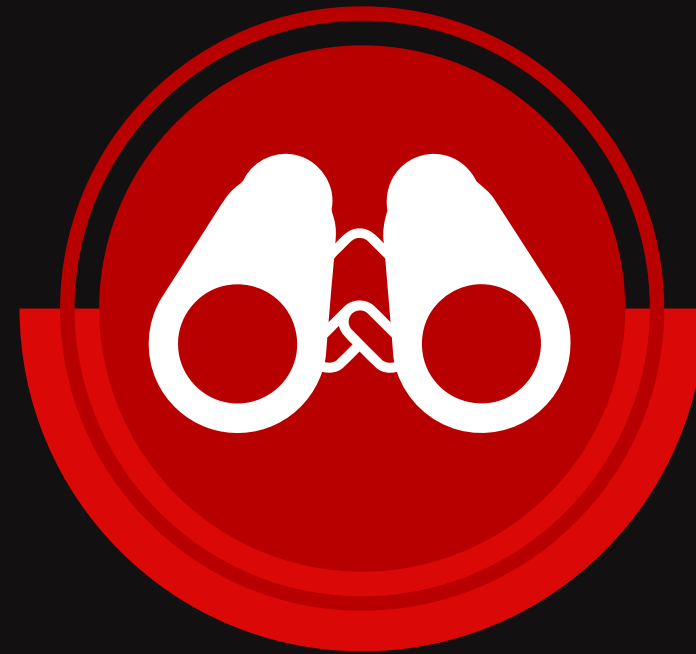

OUR COMPANY

SysReforms International (Private) Limited leverages its strong reputation both domestically and internationally to assist clients in addressing the world's most challenging issues related to transparency, governance, and accountability across various sectors. Our team of seasoned professionals excels in online platform development, data analytics, and visualization, transforming complex datasets into actionable insights for policymakers and managers. This expertise supports informed decision-making and progress tracking. Our unique skill set encompasses data governance, management, and analysis, allowing us to deliver comprehensive, end-to-end solutions. Recognized by international organizations such as UNDP, WHO, USAID, and others, SysReforms is renowned for designing, developing, and deploying innovative, cost-effective, and sustainable technology solutions of international standards

VISION & MISSION

VISION

To harness the power of technology to create innovative solutions that alleviate human suffering and promote sustainable development worldwide, partnering with international development organizations to ensure equitable, inclusive, and impactful outcomes for all communities, regardless of their background or circumstances

MISSION

To deliver cutting-edge technological solutions and services that address critical global challenges. We strive to collaborate with international development partners to design, implement, and support projects that enhance the quality of life, promote education, improve health outcomes, and foster economic growth. Our commitment is to ensure that our initiatives are driven by inclusivity, transparency, and a deep respect for the diverse needs of the communities we serve, ultimately contributing to a more just and equitable world

BOARD OF DIRECTORS

ZAFAR JAMIL

Zafar possesses a passion for leading, following, mentoring, and coaching diverse teams for interventions in public, private, and development sectors, mastering the science of policy, research, service delivery, and implementation. With demonstrated experience in managing challenging projects in culturally diverse and learning situations to achieve relative equity and social justice for at-risk populations, he brings with him a rich experience of over 35 years. He also has demonstrated experience in project cycle management encompassing technical, administrative, HR, and financial aspects. He has implemented various projects from the platforms of John Snow Inc. (JSI), Chemonics International Inc., UNICEF, WHO, DAI, UN, and Governments. He holds two master's degrees in management sciences and strategy

WASIF RAZA MIRZA

Wasif Raza Mirza possesses a master's degree in computer science with more than 25 years of experience as Director of MIS, Systems Analyst, and Software Development. He is responsible for the overall completion of technical deliverables with respect to timelines. Mr. Wasif Raza Mirza has rich and insightful experience, involved in diverse engagements and responsibilities such as System Architect, MIS Implementer, Business Process/IT/GIS Analyst, Analyst Programmer, Webmaster/Information Management, and Software Trainer. Holding certifications in Supply Chain Analytics and Technologies from MITx, USA, Mr. Wasif has diverse technological skills and experience working in projects related to USAID, UNDP, WHO/EMRO, WHO/GAVI, and UNICEF

DR. KHURRAM SHAHZAD

Dr. Khurram Shahzad, an epidemiologist and public health professional with over two decades of experience, has held leadership positions in program management, monitoring, and evaluation at prestigious international development agencies such as UNICEF, WHO, UNFPA, UNDP, the World Bank, John Snow Inc., and Chemonics International. With a specific focus on strengthening health systems through monitoring and evaluation, he has made significant contributions at the global level to generate evidence for health and related programs. Dr. Khurram has adeptly applied his robust quantitative skills to address intricate health challenges in Pakistan and neighboring regions, encompassing occupational health, polio and immunization, HIV and AIDS, health logistics, and veterinary services
